Mrs. Robert Almy proudly displays a typical production from their Bambi Farms Shorthorn herd. This heifer was sold in a former Princeton sale. Always present with a strong consignment, the Almys are selling one bull and three females in this sale.

I don't know of any sale that makes me more proud than the annual sale of the West Central Illinois Shorthorn Breeders' Association. I have never known anyone to enter the barn at Princeton and say that he was disappointed with the offering. In ten years the sale has never averaged below \$300. Last year's average was \$320 ... a respectable average for the times ... but in my opinion it in no way reflected the tremendous quality and buying opportunities accorded.

There are a number of entire herds in this area ... good herds ... that have been founded solely on purchases through this sale. With the money that can be received today by sending a poor producing cow to market, it only seems good business to me to make some herd changes by adding to the top of your herd from this sale.

Consignor confidence in this sale has grown to the point where cattle that in former years would have been consigned to the International sale are coming to Princeton in increasing numbers. The reason is consignor-pride in this offering.

A glance at the list of consignors and the pedigrees will tell you quickly that here we sell the royally bred kind from many of the most respected herds of the breed.
